Hi Omar,

Thank you for contacting IT Support. I understand your printer is not responding when you try to print. Let me ask you a few quick questions and we'll get this working as soon as possible.

Kind regards,

IT Support

Troubleshooting Log – Ticket 3A-HELP-001

Internal no

1. Asked client when the issue began – reported today after morning reboot.
2. Verified printer connection:
  - USB cable securely connected.
  - Power light ON.
3. Checked "Devices and Printers" in Control Panel – printer shown as "Offline".
4. Right-clicked → selected "Use Printer Online".
5. Ran a test print – successful.
6. Confirmed document prints normally now.

Root Cause: Printer was set to Offline mode.  
Resolution: Changed to Online; verified successful print.

Hi Omar,

I've fixed the printer issue — it was set to "Offline."  
I've changed it back to "Online," and printing is now working normally.

Please try printing again and confirm it's working fine on your end.

Kind regards,

IT Support

#16 Network Outage – No Internet Connectivity

Submitted November 5, 2025 at 19:24 Received via Web Form Requester omar.khan <omarkhan.00@gmail.com>

Tirth Patel November 5, 2025 at 19:24 Hi Omar,

Thank you for reaching out. I understand you're unable to connect to the internet. I'll start by checking your system settings and connection details to identify the cause.

Kind regards,

IT Support

Tirth Patel November 5, 2025 at 19:26 Troubleshooting Log – Ticket 3B-ESC-001

Internal note

- Confirmed the issue:
  - No websites loading.
  - Network icon showing "No Internet Access".
- Checked local settings:
  - Ethernet cable plugged in and link light ON.
  - IP address obtained via DHCP (ipconfig shows 169.254.x.x – no valid IP).
- Tried renewing IP (ipconfig /release and /renew) – failed.
- Confirmed other users on same floor also have no internet connection.

Findings:

- Problem not isolated to user device.
- Indicates possible switch or router issue.

Action:

- Collected relevant system info and screenshots.
- Escalated ticket to Network Team for further investigation.

Escalation Details:

- Assigned to: Network Engineer - [Avatar]
- Priority: High
- Notes: Multiple users affected, likely switch/router issue.

Tirth Patel November 5, 2025 at 19:27 Hi Omar,

It appears the issue is not limited to your computer — multiple users are affected. I've escalated this ticket to our Network Engineering Team for urgent investigation. They'll update you once the root cause has been identified and resolved.

Thank you for your patience.

Kind regards,

IT Support
